

WATCP EQUITY AND INCLUSION SURVEY RESULTS

A County Criminal Justice data dashboard was started that includes data from the jail, DA's office, Clerk of Court and Criminal Justice Department. 75% shared the comparison report with their team and their stakeholders!! We continue to evaluate our eligibility criteria to see if there is a disparate impact.

We just updated our mission statement to include more equity and inclusion language. We started tracking referrals, denials, and reasons for disqualifications. We are currently updating our Policy and Procedure manual to include more inclusive language.
